

## Multiplem

#jpeglab

Multiplem è il risultato della scomposizione di un quadrato in quattro forme, tre triangoli e un trapezio, le quali ricomposte, sempre in maniera diversa, danno vita ad altre figure geometriche.

Multiplem is the result of the division of a square in four shapes, three triangles and a trapezoid, which recomposed, always in a different way, gives life to other geometric figures.

## Consigli di posa | Laying guide

### Rasatura della parete | Shaving (leveling) the wall

Assicurarsi che la superficie da rivestire sia perfettamente rasata, planare e non presenti residui di polvere. In presenza di supporti assorbenti è necessario stendere sulla superficie uno strato di Primer. Per ulteriori informazioni rivolgersi presso un rivenditore di prodotti chimici per edilizia.  
Check that the foundation is completely shaved (smooth) and uniform and there is not superficial dust. In case of absorbent surfaces apply a primer on the wall. Eventually please consulting a dealer.

### Collante | The glue

Si può usare qualsiasi collante in commercio adatto alla posa delle pietre naturali. Il tipo di collante può cambiare a seconda della superficie da rivestire. Per maggiori info rivolgersi a un rivenditore specializzato.

It's possible to use every glue suitable for the laying of natural stones. The type of the glue depends on the surface to cover. Eventually please consulting a dealer.

### Stuccatura | Grouting

nerosicilia consiglia la fuga cementizia in tono. Per maggiori informazioni rivolgersi presso un rivenditore autorizzato.

nerosicilia advise to use the colour of grout tone on tone. Eventually consult authorized dealer.

### Cura + manutenzione | Care + maintenance

#### nerosicilia viene fornito già con trattamento idro-olio-repellente antimacchia antibatterico.

In caso di macchie procedere come segue:

- Pulire bene la superficie con un detergente idoneo per le pietre naturali; il prodotto da noi consigliato è Fila PS87, da usare diluito con acqua secondo le istruzioni d'uso.
- Utilizzare un prodotto antimacchia idoneo per le pietre naturali, che non ne alteri il tono. Il prodotto da noi consigliato è il GAP 28.
- SOLO SULLA NERA E NERODECORO è possibile utilizzare un tonalizzante specifico per le pietre naturali (esempio FILA STONE PLUS).
- ATTENZIONE, non usare Fila Stone Plus sulla enneUno e Textone enneUno perché potrebbe modificarne il tono.

#### nerosicilia is supplied with oil and waterproof, stain resistant and anti-bacterial treatment.

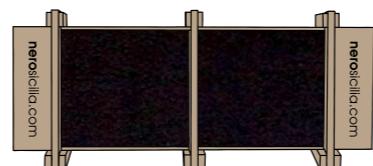

In case of stains proceed as follows:

- Purify the surface with a suitable cleanser for natural stones; the product we recommend is Fila PS87, to use diluted with water according to the instructions for use.
- Use a stain resistant product suitable for natural stones, which do not modify the tone. The product we recommended is the GAP 28.
- ONLY ON LANERA AND NERODECORO you can use a specific tonic for natural stones (ex. FILA STONE PLUS).
- CAUTION, do not use Fila Stone Plus on enneUno and Textone enneUno because it could change the tone.
