No two cities are more symbolic of the modern metropolis than New York and Los Angeles. Inspired by these epicenters of contemporary design and popular culture, NY2LAHDP targets the modern aesthetic. Compelling characteristics of cement and plaster fuse into a porcelain representation of urban sophistication. Graphics were created by hand, starting from recycled pavers and then precisely layering raw elements, sanding, tinting and repeating. The graceful movement of color and subtle texture created a look that is both industrial and urbane.

Color body field tile is available in multiple rectified formats – 4x12, 12x24, 24x24 and a waterjet cut Polygon shape that measures 21.5x29.5. These formats boast of gorgeous shade variations in each of the six color choices: Malibu White, Brentwood Beige, Riverside Steel, Tribeca Taupe, Gramercy

Gray, and Chelsea Black. Adding flair to the line are bullnose and dot mosaics in each color, and two polygon mosaics that come in either a warm or cool mix. Completing the line are three 24x24 2cm outdoor porcelain pavers in Malibu White, Brentwood Beige, and Riverside Steel.

Manufactured using proprietary HDP—High Definition Porcelain® printing technology, NY2LAHDP is appropriate for most applications in both residential and commercial settings. It is entirely made in the USA in our Green Squared® certified Advanced Manufacturing Center in Lawrenceburg, KY. It includes pre-consumer recycled content and is GREENGUARD® and Porcelain Tile certified. Incorporated into the tile surface is Microban® antimicrobial technology that works continuously to inhibit bacteria growth, improve visible cleanliness, and reduce odors.
