

The beauty of feeling at home

# It's my home, it's life

They're my emotions, my discoveries, everything I care about.

Interior design has returned to the essence by creating embracing, warm and comfortable environments

Vivid wood, with natural tones and prominent grain, is the source of inspiration for a colored-body glazed stoneware tile with excellent technical performances which guarantee enduring beauty.

The surface is full of details, pleasing to the eye and to the touch. It offers a natural feeling, which must be experienced day by day.

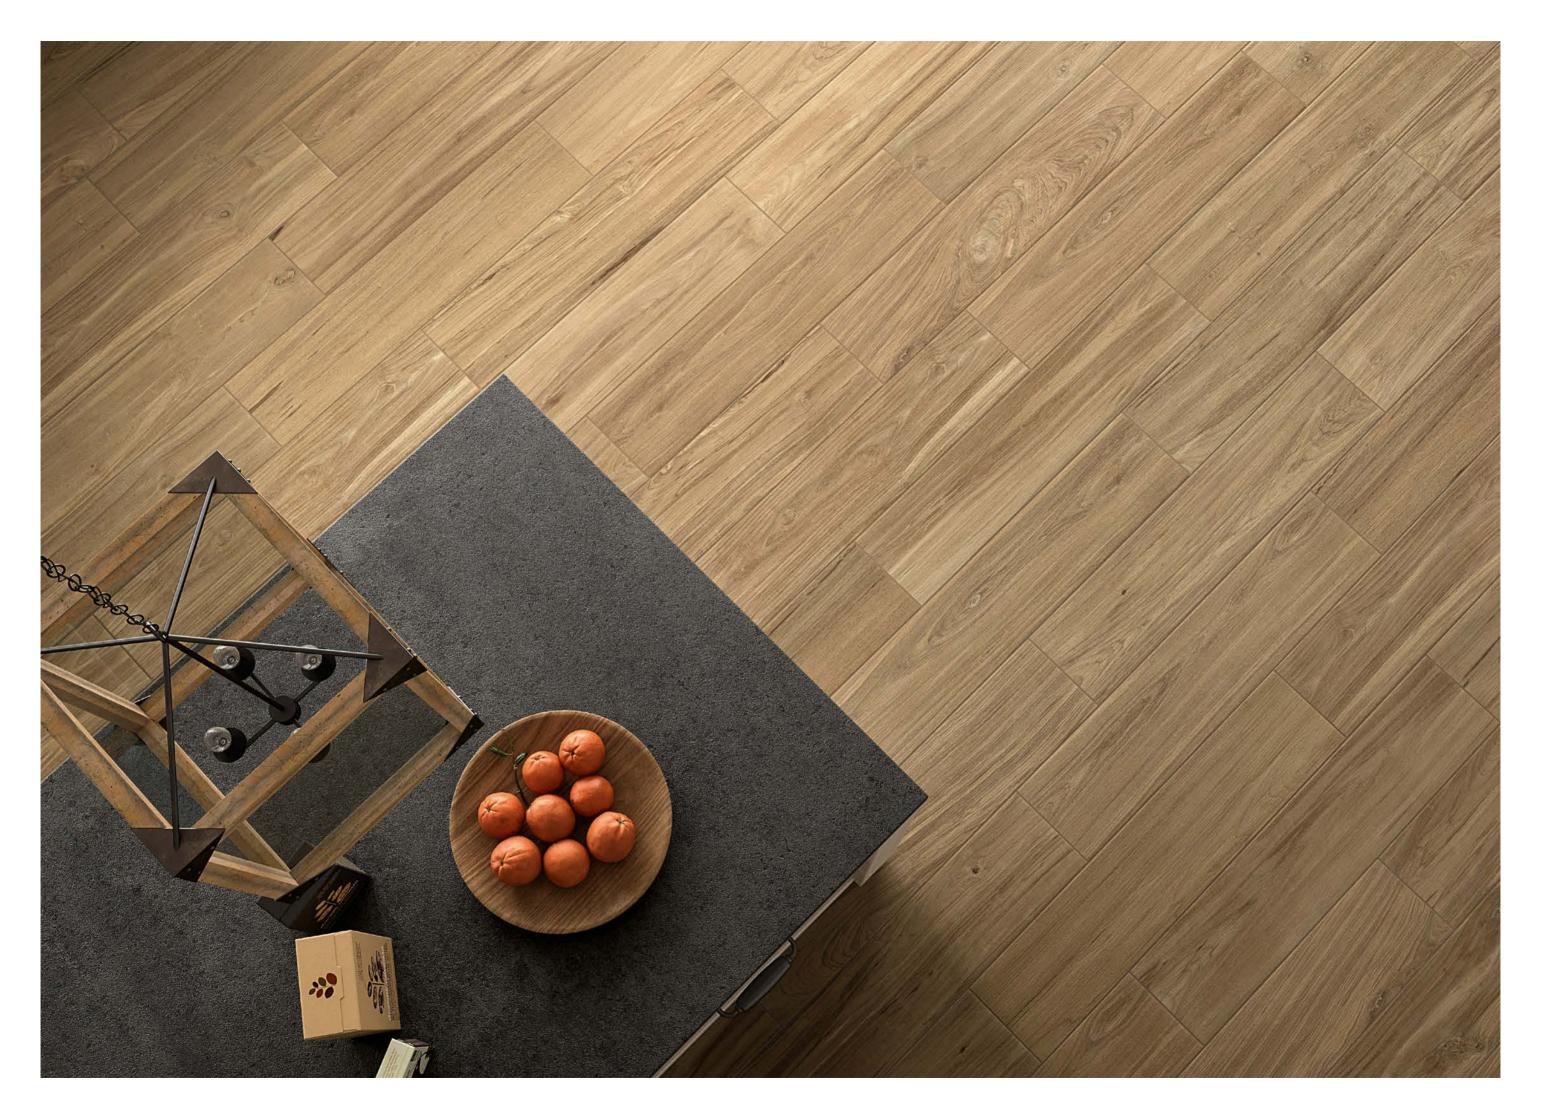

A timeless décor, perfect for giving new creative energy to any environment, offering a flawless essential mood

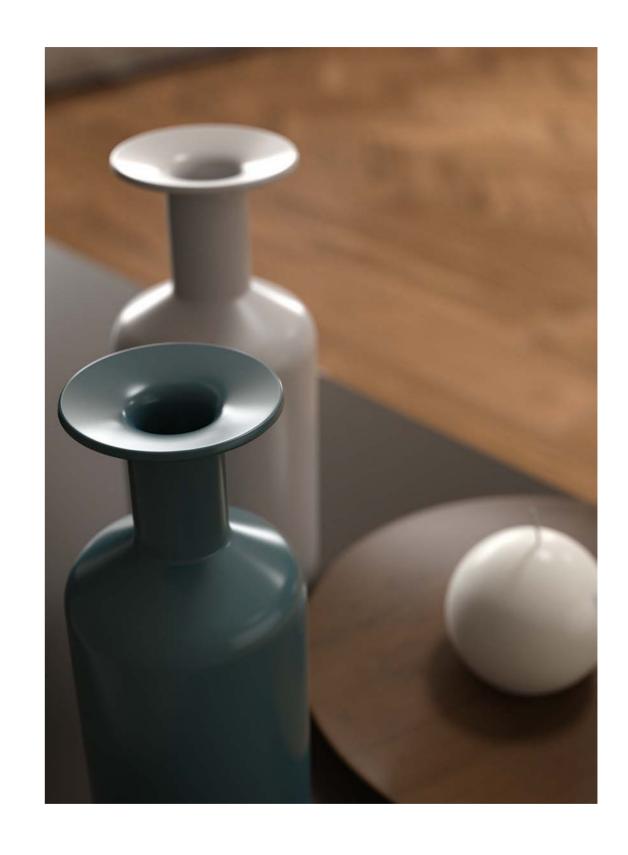

**Hay Natural 8"x36" - 20x90.5 cm**

<sup>(\*)</sup> Excluding hydrofluoric acid and its derivatives.

(\*\*) Grout Joint Recommendations. Per TCNA Handbook, the minimum required joint width for ceramic tile and natural stone is 1/16". Setting ceramic or stone without a grout joint of a least 1/16", often referred to as a butt joint, does not provide sufficient accommodation for dynamic building movement, differential thermal expansion, or allowable variation in fabrication or manufacturing.

(\*\*\*\*) With the exception of areas characterized by a higher risk of slipping (such as public showers, indoor swimming pools, locker rooms and steam rooms) for which an Anti-Slip surface is recommended.

(\*\*\*\*) Anti-Slip surface special order only.

## **COLOURED-BODY GLAZED STONEWARE**

### INTENDED USE

KEY

Kitchens, bathrooms, living rooms and other residential environments.

Offices, offices open to the general public. waiting rooms, shops, public bathrooms, common apartment block areas, restaurant dining rooms, car showrooms, bars, cinemas, surgeries/clinics, hotel rooms and bathrooms.

Common areas of shopping centres, hotel fovers. canteens, fast food restaurants, dance clubs, hospitals, schools, museums, places of worship, airports, stations.

Mainly for external areas that require flooring with anti-slip characteristics.

# **CERTIFICATIONS**

PANARIA CERAMICA is a member of the U.S. Green Building Council: this is an organisation that promotes buildings that are usgbc environmentally responsible, profitable and healthy places to live and work. LEED card LIFE series is available on

GREENGUARD CERTIFICATION series is made in a production plan GOLD GREENGUARD certified.

ECO COMPATIBILE **CERAMICA PANARIA** 

ENVIRONMENTAL DECLARATION Product Declaration is of North America (TCNA)

# Product designed in Italy and made in USA

## PANARIA AND THE ENVIRONMENT

# **100% REUSE OF UNFIRED TILES**

Crude waste generated by the process is reintegrated in the production cycle with no costs for the environment. This contributes to the safeguard of natural resources.

## 100% REUSE/RECYCLING OF THE INDUSTRIAL WASTE - FIRED TILES

The waste-fired tiles are fully reused in the production cycle. In addition, at the end of life, the tiles Panaria can be recycled as materials for substrates for roads and buildings, thus reducing the use of gravel and natural aggregates commonly used in building.

# SAFETY REQUIREMENTS: NO FIRE REACTION

LOW EMISSIONS IN THE ATMOSPHERE

accordance with NFPA 255.

All of Panaria's ceramic tile products are Class A building materials as described in ASTM E84 - Standard Test Method for Surface Burning Characteristics of Building Materials. This is due to the flame spread rating of (0) and smoke developed rating of (0) falling within the ranges of a Class A material. Other building codes refer to this as a Type I material in

Panaria production plant strictly complies to US Standards with a very small amount of gas

# 100% WATER RECYCLING

The water used in the production process is recycled. The water demand is strongly reduced by this mean.

## 100% OF NON CERAMIC WASTE

Is differentiated and recycled in other production cycles.

## PANARIA PACKING MATERIAL IS 100% RECYCLABLE

Carton boxes, plastic packaging materials, wooden pallets, straps, etc.

## METHANE CONSUMPTION IS HIGHLY REDUCED

By the use of up to date technologies and customized installations.
